[1] When a customer makes a claim for Universal Credit they will be asked if they have a mental/physical health condition or a disability which prevents, or limits, their ability to work. When claimants declare they have a restricted ability to work due to their health condition and DWP receives medical evidence in support of the claim - the claimant is placed on UC health. This will include cases where claimants are in work but report a health condition which limits the amount of work they can do.
