¹ Whilst the 2021 Census population figure has now been released; these figures will not be updated until the official 2021 mid-year population estimate is released in October / November this year to ensure consistency in the time period reported. For the 2021 Census population figure please refer to the relevant Census Release Briefing Paper.

² The latest ONS estimate suggests that in 2020 there were a total of 18,000 residents born outside the UK; including 9,000 residents born within the EU. Given that the latest government figures show that in December 2021 there had been 34,000 applications for the EU Settlement Scheme then it is the opinion of the Insight Team that the ONS figure **significantly undercounts the number of non-UK born residents in Hull.**

³ This figure has now been changed from the ONS BRES estimate of employee jobs to the ONS jobs density estimate. This means it now includes employees, self-employed, and government supported trainees.

⁴ Humberside Police are currently implementing a new crime recording system so are unable to provide crime, outcome or stop and search data. Updated data will be provided when this work is complete.

⁵ Comparable full-year school absence data is not unavailable for 2019/2020 due to the effect on absence of the COVID pandemic. 2020/21 data is therefore compared against 2018/19 data.
