<sup>1</sup> The latest ONS estimate suggests that in 2020 there were a total of 18,000 residents born outside the UK; including 9,000 residents born within the EU. Given that the latest government figures show that in June 2021 there had been 31,410 applications for the EU Settlement Scheme then it is the opinion of the Insight Team that the ONS figure **significantly undercounts the number of non-UK born residents in Hull.**

<sup>2</sup> This figure has now been changed from the ONS BRES estimate of employee jobs to the ONS jobs density estimate. This means it now includes employees, self-employed, and government supported trainees.
